

NetMRI System Requirements

NetMRI Virtual Appliance VMWare System Requirements

License Size		Recommended Configuration			
Devices	Interfaces	VMWare HyperVisor*	Process Cores**	Memory	Local Disk Storage***
25	500	ESX 4.0	(1) 2.4GHz	1GB	20GB
50	1,000	ESX 4.0	(1) 2.4GHz	1GB	40GB
200	10,000	ESX 4.0	(2) 2.4GHz	2GB	100GB
600	30,000	ESX 4.0	(4) 2.4GHz	4GB	250GB
1,200	60,000	ESX 4.0	(4) 2.4GHz	4GB	500GB
2,000	100,000	ESX 4.0	(8) 2.4GHz	6GB	750GB
3,000	150,000	ESX 4.0	(8) 2.4GHz	7GB	1,200GB

* It is strongly recommended that a customer not use anything but VMWare ESX in production. Other VMWare HyperVisor choices in order of preference are: ESX 4.0 (most preferred), ESX 3.5, Server 2, Workstation 6.5 (least preferred).

** Performance can be impaired with other applications running on the same VM server as NetMRI, especially if the number of processor cores assigned to NetMRI is greater than half of the total processor cores on the VM server.

*** Disk performance is a critical factor for performance. The more spindles dedicated to NetMRI, the better. In particular, low Average Seek Times of 4 milliseconds or better will produce the best results. This is typically obtained by high disk spindle speeds (15,000 RPM) and dedicated spindles, perhaps achieved with specialized RAID configurations. Sharing Spindles and/or LUNs between NetMRI and other applications is likely to compromise performance and is strongly discouraged.

About Teneo:

Teneo is an Infrastructure Optimization Company that helps customers to understand and improve the way their IT works.

We do this by providing solutions in the areas of Management, Performance and Virtualization.

Our solutions help customers to:

- ▶ Understand what is on the network
- ▶ Increase efficiency & decrease cost of IT
- ▶ Improve the performance of applications
- ▶ Work collaboratively between sites

Our focus is to understand customer goals and provide products & services that allow them to be achieved.

Teneo has over 1000 customers across 40 countries and offers a portfolio of services that includes Training, Installation, Maintenance and Performance Analysis Consultancy.

Head Office
20/21 Theale Lakes Business Park,
Moulden Way, Sulhamstead,
